Stony Brook University
Stony Brook, New York

ACKNOWLEDGMENTS

It would not have been possible to organize Evolution 2006 without the cooperation, contributions, and assistance of many people. The officers of all three societies, a large fraction of the graduate students, postdocs, and faculty in our department, several Stony Brook staff members and administrators, and the sponsors of the meeting contributed to our efforts.

The executive vice-presidents **Jessica Gurevitch** (SSE), **Mary E. Power** (ASN), and **Pamela S. Soltis** (SSB) funneled information on the council meetings, symposia, and special sessions to us.

As usual, the heavy lifting was done by graduate students, most of whom are in the Graduate Program in Ecology and Evolution at Stony Brook. **Annie Green**, the meeting coordinator, did a superb job of providing continuity during the past year, interfacing with the administration, every volunteer committee, sponsors, and us. Annie was involved in everything, kept us on track, and was instrumental in organizing the meeting. We owe her and three committee chairs who assumed unusually large responsibilities, **Ramona Walls** (Registration), **Sarah Gray** (Hospitality) and **Chris Jensen** (Program), special thanks. In addition, the following committee members contributed their time: **Davide Arcuri**, **Daniel Moen**, **Shu-Dan Yeh**, **Peter J. Park**, **Nicole Lashbrook**, **Matthew Travis**, **Norah Warchola**, **Adam Ehmer**, **Cathy McGlynn**, **Robert Harnett**, **Dave Ruggiero**, **Sarah Smith**, **Dan Stoebel**, **Roman Yukilevich**, **J. Matt Hoch**, **Windsor E. Aguirre**, **Saad Arif**, **Josh Banta**, **Jennifer Dixson**, **Jonathan Flowers**, **Mark Jonas**, **Toni Lyn Morelli**, **Eliza Woo**, **Seiji Kumagai**, **M. Caitlin Fisher-Reid**, **Kelly O'Donnell**, **Rodrigo Cogni**, **Christina Richards**, **Chris Noto**, **Summer Ostrowski**, **Thomas Merritt**, **Melanie Delion**, **Josh Mackie**, **Bengt J. Allen**, **Lee Brown**, **Sybil G. Gotsch**, **Lei Zhu**, **Joe Lachance**, and **Jorge Velasquez**.

Several of our departmental colleagues helped organization of the meeting. **Jim Rohlf** wrote or supervised the website for the meeting. He also coordinated our planning and activities with administrative offices on campus. **Fumio Aoki** wrote much of the code for the website and related data capture. **John True** helped design and acquire T-shirts, and **Catherine Graham** organized the entertainment. **Doug Futuyma** worked with **Joel Cracraft** of the American Museum of Natural History to arrange events at the Museum for the meeting, and those events would not have been possible without the cooperation and effort of our colleagues at the AMNH. **Donna DiGiovanni** supervised the account for the meeting, and **Jessica Gurevitch** managed a smaller fund. **Charlie Janson** committed departmental staff effort, resources, and facilities for the meeting and provided additional contacts with the university administration.

Each of the symposium organizers recruited her or his speakers and scheduled all the presentations in the symposia.

Members of several administrative units at Stony Brook University contributed to this meeting. **James Staros**, Dean, College of Arts and Sciences, generously contributed seed money to organize the meeting, and **Robert McGrath**, University Provost, co-sponsored the SSE Education Committee's Outreach Lecture. **Ann Brody**, Assistant Director, Conferences and Special Events, did a heroic job to identify, reserve, and plan for the use of lecture halls, rooms, buses, and other facilities, coordinate catering, and reserve off-campus housing. **Manuel Cortes**, Coordinator for Conference Housing, squeezed as many people into the residence halls as possible. **Dave Jagsarran**, Director, Catering, supervised all catering for meals, coffee breaks, and receptions. **Karen Leibowitz**, Art Director, Office of Communications, created the final versions of the meeting logos from preliminary versions by **John True**. **Karen Kernan**, Director, Undergraduate Research and Creative Activities Program, loaned us the easels for the poster sessions.

Doug Futuyma of our department and **Marilyn Jordan**, Conservation Scientist, The Nature Conservancy of Long Island, contributed their time and expertise for the bird watching and pine barrens field trips. **Louisa Hargrave**, Director of Stony Brook University's Center for Wine, Food, and Culture planned the wine tasting tour and on-campus wine tasting event.

We are grateful for the generous contributions of our colleagues here at Stony Brook, at the American Museum of Natural History, and in the three societies for their assistance, suggestions, and advice.

Michael A. Bell and **Massimo Pigliucci**
Department of Ecology and Evolution, Stony Brook University

Registration and Information

Registration and general help are available in the Wang Center Lobby at the following times:

Friday, June 23 rd	1:00 – 8:00 pm
Saturday, June 24 th	8:00 am – 5:00 pm
Sunday, June 25 th	8:00 am – 5:00 pm
Monday, June 26 th	8:00 am – 5:00 pm
Tuesday, June 27 th	8:00 am – 5:00 pm

Meeting volunteers from *Stony Brook University* have a green banner on the bottom of their nametags – if you have a question or concern, feel free to speak to one of these volunteers.

Message Board

A message board is located near the *Registration and Information Desk* in the Wang Center Lobby.

Presentations

Each meeting room will be provided with a laptop PC, a video projector, and an operator. The computer will be provided with software for PowerPoint and Acrobat PDF presentations. With so many talks it will not be possible for presenters to use their own laptop computers. The PowerPoint or PDF files must be provided before the start of a session on either a CD or an USB "thumb drive." Please report to the room of your session at least 20 minutes before the beginning of the session. At least one room will be available with computers to enable presenters to double-check their presentations or make last-minute changes but with so many participants expected the lines may be long. Bring your own laptop if possible.

Internet access during the conference

While some Internet connected computers will be available, they may not be sufficient for such a large conference. Those who bring their own laptop will be able to connect to the Internet using a wired Ethernet connection in the Wang Center. Wireless access to the Internet will also be possible in parts of the Wang Center and several other buildings used by the conference.

Transportation

Taxi services:

Bluesky Taxi 631-474-0173	Tom's Taxi 631-331-1121	East End Taxi 631-324-0077	A Cab Service, Inc. 631-473-1300

Shuttle Buses to Local Hotels:

Shuttle buses will run between the Wang Center and the Hampton Inn and Radisson Hotel (both at exit 63 of the Long Island Expressway/495). Wang Center dropoffs/pickups will be by the theatre entrance cutout.

These buses operate on the following schedule:

Friday, June 23: 12:45 pm bus leaves Radisson, stops at Hampton Inn, 1:30 pm – drop off at Wang Center, service continues on the hour until 7 pm. Bus will wait at Wang Center for any participants returning to hotels. Last departure from Wang Center at 10:15 pm.

Saturday, June 24: Bus leaves Radisson at 7:30 am, stops at Hampton Inn, 8:15 am drop off at Wang Center. Bus leaves Radisson again at 9:15 am, stops at Hampton Inn, 9:45 am drop off at Wang Center. Buses returning to the Radisson & Hampton Inn depart from the **SAC loop** at 7:30 pm, 8:00 pm, 8:30 pm, and 9:00 pm. Buses returning to the Radisson & Hampton Inn depart from the **Wang Center** at 9:30 pm, and 10:45 pm.

Sunday, June 25: Bus leaves Radisson at 7:30 am, stops at Hampton Inn, 8:15 am drop off at Wang Center. Bus leaves Radisson again at 9:15 am, stops at Hampton Inn, 9:45 am drop off at Wang Center. Buses returning to the Radisson & Hampton Inn depart from the **SAC loop** at 7:00 pm, 7:30 pm, 9:30 pm, 10:00 pm, 10:30 pm, and 11:00 pm.

Monday, June 26: Bus leaves Radisson at 7:30 am, stops at Hampton Inn, 8:15 am drop off at Wang Center. Bus leaves Radisson again at 9:15 am, stops at Hampton Inn, 9:45 am drop off at Wang Center. Buses returning to the Radisson & Hampton Inn depart from the **SAC loop** at 8:30 pm and 9:00 pm. Buses returning to the Radisson & Hampton Inn depart from the **Wang Center** at 9:30 pm, and 10:45 pm.

Tuesday, June 27: Bus leaves Radisson at 7:30 am, stops at Hampton Inn, 8:15 am drop off at Wang Center. Bus leaves Radisson again at 9:15 am, stops at Hampton Inn, 9:45 am drop off at Wang Center. Buses returning to the Radisson & Hampton Inn depart from the **SAC loop** at 5:30 pm, 7:30 pm, and 10:15 pm. Buses returning to the Radisson & Hampton Inn depart from the **Wang Center** at 7:30 pm.

Shuttle Buses to Port Jefferson:

Shuttle buses between the Wang Center and Port Jefferson will be available on June 24th, 25th, 26th between the hours of 6 pm and 11:30 pm. Pickup/Dropoff at Wang Center will be at the cutout by the Wang Center *Theatre Entrance*. Dropoff/Pickup in Port Jefferson will be determined by bus company. Catch the bus in Port Jefferson where you are dropped off.

Pickups at Wang Center should be on the hour. Departures from Port Jefferson should be on the half hour except that **last pickup in Port Jefferson will be 11:00 pm**.

Refreshment Breaks

Morning and afternoon refreshment breaks will be available June 24th through June 27th during two intersession intervals: **10:00 – 10:30 am** and **3:00 – 3:30 pm**. Refreshment breaks will be offered in the SAC Why lobby & 3rd floor area and Wang Skylight lobby & Chapel.

Dining

On campus eateries:

Student Activities Center (SAC) cafeteria - Freshly prepared items for breakfast, lunch, or dinner. Sat 10am-6pm, Sun 10am-7pm, Mon-Tue 7:30am-7pm, Wed-Fri 7:30am-6pm

University Café - full service espresso and tea bar, wide selection of beer and wine, variety of desserts, pastries, cheese & fruit and panini. Located on the side of the Student Union. Lunch 12-4 and lounge (light fare and beverages) 5pm-2am. World Cup shown here!

Jasmine - Located in the Wang Center. Serves Indian, Chinese, Thai, Japanese Grill, and Sushi. Sat 11am-6pm, Sun-Mon-Tue 11am-8pm, Thu-Fri 11:00am-6:00pm.

On campus nightlife:

Tabler Arts Center:

Friday, June 23 rd	8:00 pm – 1:00 am
Saturday, June 24 th	8:00 pm – 1:00 am
Monday, June 26 th	8:00 pm – 1:00 am

University Café:

Thursday, June 22 nd	5:00 pm – 2:00 am
Friday, June 23 rd	5:00 pm – 2:00 am
Saturday, June 24 th	5:00 pm – 2:00 am
Sunday, June 25 th	5:00 pm – 2:00 am
Monday, June 26 th	5:00 pm – 2:00 am
Tuesday, June 27 th	5:00 pm – 2:00 am

A more thorough listing of bars and restaurants can be found inside your registration packet.

SSB Symposium *Species Delimitation*

Organizer: John Wiens

Wang Theatre

- 8:00 Morphology, molecules, and species delimitation
John Wiens, Stony Brook University
- 8:20 Species concepts and species delimitation
Kevin de Queiroz, U.S. National Museum
- 8:40 When do gene trees mislead? Separating signal from noise in genealogical information
Lacey Knowles, University of Michigan
- 9:00 Species limits in naturally fragmented systems
Marshal Hedin, San Diego State University
- 9:20 Detecting hybridization and species limits with phylogeographic data
Jack Sullivan, University of Idaho
- 9:40 The nature of plant species
Loren Rieseberg, University of British Columbia
- 10:00 Coffee break
- 10:30 Species, SNPs, and Systematics: Defining species in a post-genomic age
Brad Shaffer and **Robert Thomson**, University of California at Davis
- 10:50 Using niche modeling and phylogenetics in species delimitation
Leslie Rissler, University of Alabama
- 11:10 Using niche modeling to discover new populations, new species, and cryptic species
Chris Raxworthy, American Museum of Natural History
- 11:30 DNA barcoding
Paul Hebert, Guelph University
- 11:50 Web-based taxonomy
Charles Godfray, Imperial College of London
- 12:10 Implications of species delimitation for conservation biology
Keith Crandall, Brigham Young University

Saturday, June 24

SSE Symposium *Alternative Perspectives on Evolutionary Dynamics*

Organizers: Richard Gomulkiewicz and Steve Proulx

Wang Theatre

- 1:15 Intro: Alternative perspectives on evolutionary dynamics
Richard Gomulkiewicz, Washington State University
- 1:30 Stress and variability: non-uniform modifiers of sex, migration, and death
Lilach Hadany, University of Iowa
- 2:00 Modeling the evolution of genome structure: The adaptive dynamics of gene duplication
Steve Proulx, Iowa State University
- 2:30 Modeling the coevolutionary dynamics of quantitative traits
Scott Nuismer, University of Idaho
- 3:00 Coffee Break
- 3:30 Simplified representations of two types of adaptive change in ecological models
Peter Abrams, University of Toronto
- 4:00 Modeling the evolution of complex interactions
Sean Rice, Texas Tech University
- 4:30 Unifying evolutionary dynamics: From individual stochastic processes to macroscopic models
Regis Ferriere, École Normale Supérieure and University of Arizona

Sunday, June 25

SSE Symposium *The Evolution of Behavioral Phenotypes*

Organizers: John True & Susan Foster

SAC Auditorium

- 8:30 Welcome and opening remarks
John True
- 8:35 The genetic architecture of *Drosophila* behavior
Trudy F.C. Mackay
- 9:05 Social interactions, indirect genetic effects, and evolution
Allen Moore
- 9:35 Genotype-by-environment interaction and sexual selection
Chris Boake
- 10:05 Coffee
- 10:30 Ancestral Plasticity and the evolution of behavioral phenotypes
Susan Foster
- 11:00 The role of learning in behavioral evolution
Frederic Mery
- 11:30 Genetics of individual variation in human emotion and personality
Turhan Canli
- 12:00 Lunch
- 1:30 Evolution and genetics of an adaptive mammalian behavior
Hopi Hoekstra
- 2:00 Effects of reversed and relaxed selection on behavior
Matthew Wund
- 2:30 Hormones as mediators of behavioral adaptation and constraint
Ellen Ketterson
- 3:00 Coffee
- 3:30 From molecules to mating systems: neural substrates of behavioral evolution
Steven Phelps
- 4:00 Food related behaviors: From nature to molecule and back again
Mark J. Fitzpatrick
- 4:30 Closing remarks
Susan Foster

Sunday, June 25

SSB Ernst Mayr Sessions

SAC 302

Session 1

- 10:30 Evolution of an archipelago: insights from the phylogeography of the Chatham Islands skink
Libby Liggins, Victoria University of Wellington
- 10:45 Molecular Phylogenetics of the Lizard Genus *Microlophus* (Tropiduridae): Retrieving Indel Signal from Nuclear Introns
Edgar Benavides, Brigham Young University
- 11:00 Mitochondrial Genomes and Avian Phylogeny: Complex Characters and Resolvability without Explosive Radiations
Gillian Gibb, Massey University
- 11:15 Hybrid Zone Dynamics between Two Species of Salamanders in the Genus *Plethodon*
Matthew W. H. Chatfield, University of Michigan
- 11:30 Ants, Clocks, and Rocks: The Phylogeny and Diversification of Modern Ants
Corrie Saux Moreau, Harvard University
- 11:45 Bloodsucking pollinators converge: local adaptation in long tongued horse flies (Diptera: Tabanidae)
Shelah I Morita, University of California

Session 2

- 1:30 Flyfishing parasitoids: the occurrence and evolutionary implications of the ovipositor clip within Cynipoidea (Insecta: Hymenoptera)
Matt Buffington, Florida State University
- 1:45 Nuclear markers resolve ratite phylogenetic relationships and the position of palaeognaths in the avian tree of life
Oliver Haddrath, Royal Ontario Museum
- 2:00 Development of genome-scale nuclear gene markers for the tree of ray-finned fish
Chenhong Li, University of Nebraska, Lincoln
- 2:15 A biologist's guide to dating
Simon Y.W. Ho, University of Oxford
- 2:30 Dueling datasets: Why do mitochondrial and nuclear genes disagree on *Neodiprion* (Hymenoptera; Diprionidae) phylogeny?
Catherine R. Linnen, Harvard University
- 2:45 Evaluating species limits in agamic and polyploid complexes in *Crataegus* (Rosaceae)
Eugenia Lo, University of Toronto

Sunday, June 25
Ernst Mayr Sessions
SAC 302

(continued from previous page)

Session 3

- 3:30 Phylogeny of the superfamily Libelluloidea (Odonata)
Jessica Ware, Rutgers University
- 3:45 Character evolution in *Myrmecocystus* honeypot ants
Brian O'Meara, University of California, Davis
- 4:00 Allopatric speciation in the *Rhagoletis pomonella* species complex
Xianfa Xie, North Carolina State University
- 4:15 A Bayesian implementation of mixture models and the phylogeny of South American *Stenocercus* lizards (Squamata: Iguania)
Omar Torres-Carvajal, Smithsonian Institution

Sunday, June 25

American Society of Naturalists, 2006 Vice Presidential Symposium *Merging ecological and evolutionary approaches to understanding geographic gradients in species richness*

Organizer: Susan Harrison

Wang Theatre

- 1:30 Biogeographic origins and the productivity-diversity relationship in Californian serpentine plants
Susan Harrison, University of California - Davis
- 2:00 Correlates of diversification in the plant clade Dipsacales: geographic movement versus evolutionary innovation
Michael Donoghue, Yale University (with B. Moore)
- 2:30 Niche conservatism and climate change as drivers of the global bird diversity gradient
Brad Hawkins, University of California, Irvine (with J. A. F. Diniz-Filho, C. A. Jaramillo, and S. A. Soeller)
- 3:00 Coffee Break
- 3:30 A historical framework for understanding present day diversity gradients
Kaustuv Roy, University of California - San Diego
- 4:00 Evolutionary and ecological causes of the latitudinal diversity gradient in amphibians
John Wiens, SUNY-Stony Brook
- 4:30 History and diversity: explorations at the intersection of ecology and evolution
Robert Ricklefs, University of Missouri - St. Louis

Monday, June 26**JEB/ESEB Symposium *Integrative Studies of Evolutionary Processes****Organizer:* Daphne Fairbairn

Wang Theatre

- 8:30 The evolution of quorum sensing in microbes
Rolf Hoekstra, Wageningen University
- 9:00 Limits to adaptation: what can microbes in test tubes tell us?
Nick Colegrave, University of Edinburgh
- 9:30 Molecular convergence in host manipulation by parasites
Frédéric Thomas, CNRS Montpellier
- 10:00 Coffee
- 10:30 Long-term evolution in ecologically-variable space
Ben Sheldon, University of Oxford
- 11:00 Developmental control and evolution of body size
Fred Nijhout, Duke University
- 11:30 Assessing invasiveness: genetic and phenotypic variation in an invasive species
Leena Lindstrom, University of Jyväskylä
- 12:00 Lunch
- 1:30 Adaptive evolution of *Arabidopsis thaliana* in natural seasonal environments
Annie Schmitt, Brown University
- 2:00 The evolution of specialization and speciation: models and data
Isabelle Olivieri, University of Montpellier

Monday, June 26

SSE Education Symposium *Intelligent Design on Trial: Lessons from the Kitzmiller v. Dover creationism case*

SAC Auditorium

- 8:30 From parent and teacher to plaintiff and director
Brian Rehm, Kitzmiller Plaintiff and Member, Dover School Board
- 9:15 The ground rules of science
Robert T. Pennock, Michigan State University
- 10:00 Coffee Break
- 10:30 On being a “hybrid expert:” detailing the intelligent design “Wedge Strategy” in federal court
Barbara Forrest, Southeastern Louisiana University
- 11:15 Evolution and faith: What is at stake?
John F. Haught, Georgetown University
- 12:00 Lunch
- 1:30 But is it good pedagogy?
Brian Alters, McGill University
- 2:15 Fossils, genes, and mousetraps: the 21st century case for evolution
Kenneth R. Miller, Brown University
- 3:15 Coffee Break
- 3:30 Beyond “he said, she said:” How to be fair when the debate isn’t balanced
Lauri Lebo, *Lead local reporter*
- 4:15 Panel discussion for the press with all speakers + Pepper Hamilton attorneys

Speaker Biographies:

Brian Rehm

From parent and teacher to plaintiff and director.

Kitzmiller Plaintiff

Plaintiff Brian Rehm will explain the Dover situation, giving an insider’s view of the dynamics of local school boards, the effect on the community, and the experience of taking an active role to defend science education. He is a newly elected member of the Dover school board, one of the Dover CARES slate of candidates that defeated the incumbents.

Robert T. Pennock, Ph.D.

The Ground Rules of Science

Professor of Science and Technology Studies & Professor of Philosophy, Michigan State University

Expert witness Robert Pennock testified on the nature of science, showing how ID violated the ground rules of science and was essentially religious in nature.

Barbara Forrest, Ph.D.

"On Being a 'Hybrid Expert': Detailing the Intelligent Design 'Wedge Strategy' in Federal Court"

Professor of Philosophy, Southeastern Louisiana University

Expert witness Barbara Forrest gave the history of the ID Movement, detailing their "Wedge Strategy" and showing how creationists changed their terminology from Creation Science to Intelligent Design.

John F. Haught, Ph. D.

Evolution and Faith: What is at Stake?

Department of Theology

Georgetown University

Expert witness John Haught explained how evolution is not necessarily incompatible with belief in God, and how teaching ID would be a violation of the theological sensitivities of many Christians.

Brian Alters, Ph. D.

But is it Good Pedagogy?

Tomlinson Chair in Science Education

Director, Evolution Education Research Centre

McGill University

Expert witness Brian Alters testified on the educational issues, showing that teaching ID would require teachers to use poor pedagogy, to disregard findings of the scientific community, to disregard recommendations of their national professional science teacher associations, contradict teachers' professional preparation and development, and improperly prepare students for postsecondary science education.

Kenneth R. Miller, Ph.D.

Fossils, genes, and mousetraps: the 21st century case for evolution

Professor of Biology, Brown University

Expert witness Kenneth Miller was the lead scientific witness, explaining the scientific evidence for evolution.

Lauri Lebo

"Beyond 'He said, she said:' How to be fair when the debate isn't balanced."

Lead local reporter

Laurie Lebo was a journalist who covered the Dover board controversy and the trial. She'll discuss her experience covering the story and its aftermath, and will also talk about what objectivity should mean for journalists covering science stories of this sort so that coverage goes beyond the he said she said model and accurately represents the facts.

ASN Young Investigators Prize Symposium

Organizers: Tia-Lynn Ashman, Cherie Briggs and Mark Bertness
Wang Theatre

8:40 The evolution of genomes at large
Ryan Gregory, University of Guelph

9:20 Unresolved Questions in the Ecology of Speciation
Patrik Nosil, Simon Fraser University

10:00 Coffee

10:30 Speciation in Killifish and the Role of Salt Tolerance
Becky Fuller, University of Illinois

11:10 Why environmental stress-consumer models are only 1/2 right: Lessons from climate-triggered runaway grazing in coastal ecosystems
Brian Silliman, University of Florida

Tuesday, June 27

SSB symposium *Patterns of co-diversification in specialized communities*

Organizer: David Althoff

Wang Theatre

- 1:30 Introduction
Kari Segraves, Syracuse University
- 1:40 Symbiosis in the sea: patterns of coevolution in host-Symbiodinium (symbiotic dinoflagellate) associations
Scott Santos, Auburn University
- 2:00 Coevolutionary dynamics within the fungus-growing ant-microbe quadripartite symbiosis
Cameron Currie, University of Wisconsin-Madison
- 2:20 The evolutionary history of the fig-fig wasp mutualism
Carlos Machado, University of Arizona
- 2:40 Cophylogeny of figs, pollinators, parasites, and parasitoids
George Weiblen, University of Minnesota
- 3:00 Coffee Break
- 3:30 Cascading host-associated differentiation in insect communities and the evolutionary diversification of parasitic insects
John Stireman, Wright State University
- 3:50 Comparing patterns of parallel diversification across independent origins of obligate mutualism in the Epicephala-Phyllanthaceae association
Atsushi Kawakita, Kyoto University
- 4:10 Diversification in yucca moths and their parasitoids
David Althoff, Syracuse University

SPECIAL EVENTS:

Saturday, June 24, 12:00 – 1:30 pm

SSE/SSB/ASN Workshop *Survival of the Fittest: How to Get a Job in Academia*

Speakers: Lorne Wolfe & Daniel Promislow

Stony Brook Union Ballroom

Saturday, June 24, 5:15 – 6:15 pm

SSB Presidential Address *Systematics: an "unending synthesis"*

Speaker: Pamela S. Soltis, University of Florida

SAC Auditorium

Sunday, June 25, 12:30 – 1:30 pm

Special Lecture *NSF Funding Opportunities*

Speaker: Juan Carlos Morales, Program Director Syst Biol & Biodiv Inventories, NSF Wang Center 401

Sunday, June 25, 5:15 – 6:15 pm

ASN Presidential Address *The natural history of life and landscapes: towards predictive mapping*

Speaker: Mary E. Power, University of California, Berkeley

SAC Auditorium

Sunday, June 25, 8:30 – 10:00 pm

Free Movie Sneak Preview: "Flock of Dodos"

SAC Auditorium

Sunday, June 25, 8:30 – 10:00 pm

Talent showcase (battle of the bands)

SAC Ballroom A

Monday, June 26, 12:15 – 1:15 pm

Special Lecture *Beaten, but not Defeated: Creationism after Kitzmiller*

Speaker: Eugenie Scott, National Center for Science Education

SAC Auditorium

Monday, June 26, 12:30 – 1:30 pm

Trends in Ecology and Evolution *Top tips on Writing Reviews*

Speaker: Katrina A. Lythgoe

SAC 302

Monday, June 26, 7:30 – 9:00 pm

SSE Public Outreach/Provost Distinguished Lecture *In defense of the first amendment: An Up-close look at the landmark "intelligent design" case of Kitzmiller v. Dover Area School District*

Speakers: Eric Rothschild and Steve Harvey, Pepper Hamilton LLP

SAC Auditorium

Tuesday, June 27, 1:30 – 2:30 pm

Dobzhansky Prize Winner

Speaker: Russell Bonduriansky

SAC 304

Tuesday, June 27, 1:30 – 3:30 pm

National Evolution Synthesis Center (NESCent) *Synthesizing evolution: a sampling of current activities*

Speaker: Kathleen Smith

UNDERGRADUATE DIVERSITY AT SSB/SSE 2006

Organized by Scott Edwards (Museum of Comparative Zoology) and Richard Kliman (Cedar Crest College)

This year marks the fourth year of a NSF-sponsored program to bring a diverse group of undergraduates from around the country and Puerto Rico to the annual SSE/SSB meetings. This year the program was able to fund 17 students to present posters in a special undergraduate poster area to be held during the regular poster session on DAY, DATE. In addition, these undergraduates will receive mentoring from graduate students, postdocs and faculty during the meetings.

The program includes the annual "Diversity Social" on Monday, 26 June at 5:00 pm. All are invited to come and show their support for encouraging diversity and career advancement among undergraduates at SSE/SSB!

The Undergraduate Diversity Pep Talk will take place on Tuesday, 27 June at 4:00 pm.

SSE Diversity group schedule

Saturday, June 24	U/G Posters	8:30 – 10:30 pm	Wang Center
Monday, June 26	Social	5:00 pm – 7:00 pm	SBU Ballroom
Tuesday, June 27	U/G Pep Talk	4:00 – 5:00 pm	Wang Lecture Hall 2

SCHEDULE of TALKS and POSTERS

How to use the Contributed Paper Sessions schedule grid:

1. Sessions for a given day and time are arranged horizontally. To find the session you are interested in, scan across the top of each page.
2. The locations of each session are listed underneath the session title. Locations will remain the same throughout the meeting. If you attended the Systematics session in Wang Lecture Hall 1 today you can count on other Systematics sessions being located in the same room.
3. Each session is displayed vertically. To read through the topics covered in a given session, read down the column.
4. Authors are displayed in SMALL CAPS format, with the presenting author in **BOLD**.
5. Problems with our online registration system caused widespread inconsistencies in the talk titles and author names. We attempted to remedy most of these errors, but could not eliminate all of them. If your talk title or name was botched, we apologize.
6. Author affiliation and contact information can be found in the Author Index (page 110). Due to space constraints, only the first three authors are listed in the Index.
7. This grid allows you to more easily decide which talk(s) you wish to see during a given time period. To compare the talks available at 9:30 on Monday morning, simply scan horizontally across the 9:30 slot for all pages which encompass Monday morning.
8. Some symposia follow a non-standard schedule; for these sessions, please refer to the individual symposium descriptions found on pages 15-27.

How to use the Poster Sessions grid:

1. Posters are listed in numerical order. To locate a poster of a particular number, please use the map found on pages 6-7.
2. Posters are clustered by topic. You should find all of the posters in a particular topic displayed in a common area of the Wang Center.
3. Authors are displayed in SMALL CAPS format, with the presenting author in **BOLD**.
4. Author affiliation and contact information can be found in the Author Index (page 110). Due to space constraints, only the first three authors are listed in the Index.
5. Problems with our online registration system caused widespread inconsistencies in the poster titles and author names. We attempted to remedy most of these errors, but could not eliminate all of them. If your poster title or name was botched, we apologize.
